Cocoon Oil Makes A Splendid Shampoo

If you want to keep your hair in good condition, the less soap you use the better.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain unadulterated cocoon oil (which is pure and entirely greaseless) is much better than soap or anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten the hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get unadulterated cocoon oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.—Advertisement.

CATARRH CAUSED BY A GERM

Must Be Destroyed Before Catarrh Itself Can Be Cured, Says Specialist. Wonderful Results from Breathing Medicated Air.

Medicine taken into the stomach will never cure catarrh. And neither will the sprays, douches, injections, creams and other temporary relief that so many catarrh victims make a habit of using. To cure catarrh as it isn't some back-sore, first of all, get from your body the millions of germs that are flourishing in the inner recesses of your nose and throat and are causing the disease.

There is a preparation which does this called Hyemul (pronounced High-mul). Hyemul is a germ-killing, expectorant, and is formed from the purest oil of Eucalyptus combined with other healing and antiseptic ingredients. You breathe Hyemul through the mouth and nose by means of a thin rubber inhaler which discharges Hyemul into every fold of the mucous membrane of your nose and throat, kills the catarrh germs that lodge there, soothes, reduces and heals the swollen, inflamed membrane, stops the discharge and opens up the congested nose and air passages in a truly wonderful way. It gives blessed relief in five minutes from catarrh, and of every kind and it is made a practice of breathing Hyemul for a few minutes each day for just a few weeks and you will all the symptoms of catarrh vanish but the disease itself will be a thing of the past. You need not use Hyemul on just catarrh, but on all colds, influenza, and many other leading ailments to El Paso and vicinity. It is with the positive guarantee that it will cure catarrh, or that the money paid for it will be refunded. Hyemul is very inexpensive and with this guarantee is absolutely no reason why any sufferer from catarrh should not give it a fair trial.—Adv.

Water Cure For Girls Starts Albany Scandal; Official May Lose Job

Albany, N. Y., March 12.—Terrorful of Dr. Horace N. Bruce, superintendent of the state training school for girls, may result from a report received by the legislature from the department of efficiency and economy. The report deals with the "water cure" and other disciplinary measures used at the school.

When profane or immoral words are spoken, the mother is washed out with four tablespoonfuls of compound of zinc sulfate, gentian and zinc vomica. In more serious cases strips of moist plaster are placed over the mouth for 24 hours.

"We lift the plaster at noon," the report says. "Where a girl has been impudent, has refused to obey an officer or is unruly, she is punished by what might popularly be termed as the 'water cure'."

It is set forth "the girl is taken to her room by the assistant superintendent, accompanied by the trained nurse of the hospital and one of the matrons of the cottages. The bedding is removed from her bed, a blanket rolled in place on the wire springs, the girl's clothes are loosened and her hands are handcuffed behind her back and legs are put on her feet. In this condition she is laid across the roll of blankets on the bed. The assistant superintendent sits on the lower of the girl while the nurse dips a towel in water and holds it, supping wet, over the girl's face for ten minutes. The girl, being frightened, struggles, and in the endeavor to breathe through the wet towel draws in the water. This treatment is repeated until the girl enters her bed and is kept up until the girl gives up."

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Thickness and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn away streaked and faded hair beautifully; dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 20 cents a large bottle, at drug stores, known as Wyeth's Sage and Sulphur Compound, thus avoiding a lot of fuss.

While wispy, gray, faded hair is not so attractive as the rich, dark, youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.—Adv.
